### How to Read the Cards:

Choose a question or issue. Shuffle the deck. Cut the deck. Lay out the cards from below the cut, turning over cards one at a time. The court cards may describe other people in your life who influence you, or they may describe yourself.

**1<sup>st</sup>** card is the **Situation** card describing the present conditions. If this card supports the question or issue, the Final Outcome may be favourable; this card reflects the outcome you desire.

**2<sup>nd</sup>** card is the **Crossing** card, representing obstacles which stand in your way. These obstacles could be challenges preventing you from reaching your desired outcome, or clouding your vision.

**3<sup>rd</sup>** card is the **Crowning** card describing issues hanging over your head, things that are on your mind in relation the present situation. These things affect you and the question or issue.

**4<sup>th</sup>** card is the **Past**, influences leading up to the present situation, only memories now.

**5<sup>th</sup>** card is the **Root** card or Base card, the foundation of the situation. This card reflects the reason for the current situation.

**6<sup>th</sup>** card is the **Future**, what lies ahead for this situation, something about to manifest itself, something that must be prepared for.

**7<sup>th</sup>** card describes **How You See Your Situation** and how you must conduct yourself to achieve the desired outcome. This is the most helpful card in the reading.

**8<sup>th</sup>** card describes **How Others See Your Situation**, the support you receive from others (or lack of support).

**9<sup>th</sup>** card describes your **Hopes and Fears**. These issues may mislead you or distract you from reaching the desired outcome.

**10<sup>th</sup>** card is the **Final Outcome**, the natural outgrowth of events if allowed to continue on their course.
